- 40-cubic-yard open-top roll-off containers are to be provided for construction and demolition debris (C & D). Residents can also place bulky waste in these (i.e. furniture, mattresses, etc.). The contractor will accept all the material collected in these cans.
- Contractor will provide a tire storage container at each transfer station to accumulate tires. Recycling of collected tires will be the responsibility of contractor.
- Provide for removal of waste and replacement with empty containers on a schedule sufficient to allow the County to provide a full range of service during all regular hours of operation at the Madison, Hamilton and Randolph refuse transfer stations. Contractor shall be given necessary access to transfer stations for pick up of refuse after regular hours of operation.
- Bins and/or containers may be requested on a one-time basis from time-to-time at an additional charge.

Option 3:

Contractor will provide two (2) residential trash bins at each county residence (including duplexes but not including apartment buildings or housing units with more than two units) and each county business (to be used for personal trash only), up to 5,500 residences/units, to be collected once per week, and one (1) bulky waste collection per year at each residence/unit. Apartment complexes will not require a residential trash bin for each unit but may be serviced otherwise.
